CAPITOL CHANGES-The black and white outlines indicate the proposed extensions of both

the east and west "fronts" of the central part of Capitol between the House and Senate wings. The east front, facing parking area, would be extended 32½ feet to maintain its present profile. Portions of the west front would be moved outward to make a flush line for most of the central portion. The proposed "face lifting" would be part of a 110 million dollar program involving. Capitol Hill changes. The proposal, result of a study authorized by Congress in 1955, also in-

cludes recommendations for a four-level, 1,900-car underground garage, costing 42 million dol-
